1. DepEd's Basic Education Development Plan 2030 (BEDP 2030) highlights the importance of a safe and conducive learning environment as contributory to its goal that *All Filipinos are able to realize their full potential and contribute meaningfully in building a cohesive nation*. In operationalizing the BEDP at the school governance level, one of the focuses of a school plan is on improving learning outcomes, addressing classroom and school level issues and **promoting safe school**.
2. In the preparation of the Schools' Improvement Plan for SY 2022-2023 to SY 2024-2025, conducting a school risk assessment is primary in identifying intervention projects and activities that will contribute in achieving one of the intermediate outcomes under Pillar IV, specifically Sub-Intermediate Outcome 4.2: *Learners are safe and protected, and can protect themselves from risks and impacts from natural and human-induced hazards*.
3. In order to effectively aid and develop intervention projects/activities to schools within the ambit of this Division, all schools are instructed to accomplish the online Profiling of Schools' Disaster Risk Assessment for SY 2022-2023 through this link, <http://bit.ly/3AHNj5c>.
