ADVISORY No. 021

July 7, 2026

**Invitation to Participate in the
PhilSA's GeoGuhit and # YamangKalwakan Competition (PSW 2026)**

The **Philippine Space Agency (PhilSA)** invites all public and private elementary and secondary schools to participate in the upcoming Philippine Space Week 2026 competitions. Schools can participate in the following competitions:

1. #YamangKalwakan Poster-Making Contest

- **Target Participants:** Elementary School learners aged 6 to 12
- **Theme:** "Space Garden: Growing Food in Space"
- **Why Join:** It serves as a national qualifier to select three(3) Filipino representatives to the 32nd Asia-Pacific Regional Space Agency Forum Poster Contest
- **Submission Link:** <https://tinyurl.com/JoinKYPosterMaking>
- **Deadline of Submission:** July 15, 2026(online), July 20, 2026 (Physical copy arrival)

2. GeoGuhit: Move, Map & Make Your Mark

- **Target Participants:** Elementary School learners aged 6 to 12
- **Theme:** "Space Garden: Growing Food in Space"
- **Submission Link:** <https://bit.ly/GeoGuhit2026>
- **Deadline of Submission:** July 22, 2026

3. Attached are the complete Contest Mechanics, Guidelines and Application Forms.
4. For questions or clarifications, schools may directly contact the Space Education and Scholarship Division at sesd@phisa.gov.ph.

Invitation for Schools: PhilSA's GeoGuhit and #YamangKalawakan Competitions (PSW 2026)

CARMEL F. MERIS

Officer-in-Charge

Benguet

Greetings from the Philippine Space Agency (PhilSA)!

This is to respectfully follow up on an invitation previously transmitted through the DepEd Regional Offices regarding the upcoming **Philippine Space Week (PSW) 2026** celebration from **08 to 14 August 2026**.

To ensure that students and teachers in your division have the opportunity to showcase their talents and represent the country, **we respectfully request your good office to cascade and disseminate this invitation to all public and private elementary and secondary schools within your division.**

Below is a brief overview of the competitions, which are open to participants from your division:

1. #YamangKalawakan Poster-Making Contest

- **Target Participants:** Elementary students aged 6 to 12.
- **2026 Theme:** *"Space Garden: Growing Food in Space"*
- **Why Join:** It serves as the national qualifier to select three (3) Filipino representatives for the **32nd Asia-Pacific Regional Space Agency Forum (APRSAF) Poster Contest**.
- **Submission Link:** <https://tinyurl.com/JoinYKPosterMaking>
- **Deadline:** 15 July 2026 (Online) | 20 July 2026 (Physical copy arrival)

2. GeoGuhit: Move, Map & Make Your Mark

- **Target Participants:** Junior and Senior High School students (separate categories are also open for college students and the general public).
- **2026 Theme:** *"Navigating Tomorrow"* (Creating route-based art using GPS tracking apps via walking, running, or cycling).
- **High School Category Subject:** GPS artwork depicting any recognized constellation or asterism.
- **Submission Link:** <https://bit.ly/GeoGuhit2026>
- **Deadline:** 22 July 2026

Note for Division Dissemination:

We have attached the complete **Contest Mechanics, Guidelines, and Application Forms** to this email. You may directly forward this email or the attached files to your District Supervisors, School

Heads, and Teachers.

Winners will receive cash prizes and will be officially recognized during the Philippine Space Week celebrations on **14 August 2026**. Their entries will also be featured on PhilSA's official channels.

For questions or clarifications, teachers and participants may directly contact the Space Education and Scholarships Division at sesd@philsa.gov.ph.

Thank you very much for your vital role in bringing space science closer to our students. We look forward to the active participation of your division!

On behalf of PhilSA SEDS,
Necy

Space Education and Scholarships Division

GeoGuhit: Move, Map & Make your mark.

MECHANICS AND GUIDELINES

GeoGuhit is a GPS art contest organized by the Philippine Space Agency (PhilSA) as part of Philippine Space Week 2026. Participants create artwork by tracing walking, running, or cycling routes that, when mapped using a GPS tracking application, form a recognizable image or design. This year's contest is anchored on the theme "Navigating Tomorrow" — a call for Filipinos to use the tools of space science not only to find their way, but to chart a future shaped by technology, curiosity, and purpose.

The Challenge

To design and complete a GPS-traced artwork that reflects a space science concept, Filipino innovation, or a personal vision of the future. The artwork is created entirely through physical activity — walking, running, or cycling — using a GPS tracking application to record the route. The contest is open to high school students, college and tertiary-level students, and the general public, each with distinct thematic requirements that reflect their level of engagement with space science.

Contest Mechanics and Guidelines

1. This competition is open to all Filipinos currently residing in the Philippines and has the following categories:
 1. High School Students – covers Junior and Senior High School students
 2. College/Tertiary Level Students – covers undergraduate students and students in technical-vocational programs
 3. General Public – covers all other interested individuals
2. The GPS artwork must be related to the theme "Navigating Tomorrow" and comply with the designated subject/theme requirements of the participant's category:
 1. High School Students – GPS artwork depicting any recognized constellation or asterism, reflecting the use of celestial navigation and astronomy as foundational tools of space science
 2. College/Tertiary Level Students – GPS artwork depicting Philippine space assets, including satellites (e.g., Diwata-1, Diwata-2, Maya-1, Maya-2, MULA, etc), ground infrastructure, or other space technologies developed, owned, or operated by the Philippines
 3. General Public – GPS artwork on any subject of the participant's choosing, provided the artwork and its accompanying write-up demonstrate a clear and meaningful connection to the theme "Navigating Tomorrow" and the role of space science and technology in shaping the future
3. Participants must use a GPS tracking application that meets the following minimum technical requirements:
 - records the participant's route in real time using the device's GPS signal (manually plotted or digitally drawn routes are not acceptable);
 - displays the complete route on a map upon completion of the activity;
 - shows the total recorded distance, activity date, and activity type (walking, running, or cycling); and

Republic of the Philippines
Office of the President
Philippine Space Agency

- generates a screenshot or exportable image of the route map with the above details clearly visible.

Commonly used applications that meet these requirements include Strava, Garmin Connect, Google Fit, and MapMyRun, among others. PhilSA does NOT endorse any specific application. Participants are encouraged to verify that their chosen application meets the above requirements before beginning their activity.

4. Entries must satisfy the following minimum recorded activity distances:
 1. High School Students – minimum of 1.5 kilometers
 2. College/Tertiary Level Students – minimum of 3 kilometers
 3. General Public – minimum of 3 kilometers
4. Officials and employees of PhilSA, and their relatives up to the second degree of affinity or consanguinity, are not eligible to join the contest.
5. The entry must comply with the following requirements:
 - a. The GPS artwork must be personally created and completed by the participant using a GPS tracking application during the official competition period.
 - b. The GPS artwork must be created through walking, running, or cycling routes recorded using GPS tracking applications capable of route mapping.
 - c. The artwork must be related to the theme “Navigating Tomorrow” and must comply with the designated subject/theme requirements of the participant’s category.
 - d. Entries must be created within the official competition period.
 - e. Participants may use any publicly accessible and safe route or location in creating their GPS artwork, provided that all local traffic and safety regulations are observed.
 - f. Participants may use route planning tools, including .gpx plotting and AI-assisted planning tools, in conceptualizing their GPS artwork. However, all submitted entries must be personally completed and authentically recorded by the participant through actual walking, running, or cycling activities. Manipulated, simulated, falsified, or AI-generated activity records shall be grounds for disqualification. Any use of AI-assisted tools must be declared through the AI Declaration Form.
 - g. Entries containing offensive, inappropriate, discriminatory, or plagiarized content shall be automatically disqualified.
6. A participant can submit up to two (2) entries in one (1) category only. Each entry must be submitted separately and must include the following requirements:
 - a. Screenshot or exported image of the completed GPS artwork embedded in the route map, with visible activity summary/details from the GPS tracking application, submitted in JPEG or PNG format, with a maximum file size of 10 MB. Submitted screenshots/exported images must be clear, readable, and of sufficient quality to allow proper evaluation of the GPS artwork and required activity details.
 - b. The submitted image must clearly display the following details:

Republic of the Philippines
Office of the President
Philippine Space Agency

- i. full route map/artwork;
 - ii. total recorded distance;
 - iii. activity date; and
 - iv. activity type, indicating whether the route was completed by walking, running, or cycling.
 - c. A fast-track video/screen recording of the recorded activity route or a public link to the recorded activity, which must remain accessible for the entire duration of the competition;
 - d. A short write-up or caption (maximum of 150 words) explaining the concept of the artwork and its relevance to the theme "Navigating Tomorrow."
7. Participants shall submit their entries through the official GeoGuhit Submission Form, accessible at <https://bit.ly/GeoGuhit2026>. Entries submitted through any other channel will not be accepted.
- Before proceeding to the Submission Form, participants must download, accomplish, and sign all required forms, which are available at <https://bit.ly/GeoGuhitForms>. In addition to the submission requirements enumerated above, each entry must include the following:
- Accomplished and signed Certificate of Undertaking.
 - Accomplished and signed AI Declaration Form (if applicable);
 - Accomplished and signed Certificate of Endorsement (if applicable); and
 - Copy of valid school ID or proof of enrollment or registration for the current or immediately preceding academic year, for High School Student and College/Tertiary Level Student participants.
8. Participants will receive an acknowledgment upon successful submission.
9. The deadline for submission is 22 July 2026 (Wednesday). Only entries with complete attachments will be evaluated.
10. All submitted works shall remain the property of their respective owners but may be used by PhilSA in publications, websites, social media, educational materials, and other informational content exclusively for the promotion of space education.
11. The panel of judges shall use the following criteria to determine the winners:

Criteria	Description	Weight
Creativity	Demonstrates originality and inventiveness in the conceptualization of the GPS artwork. Assessed on the uniqueness of the route design concept, the thoughtfulness of the chosen subject or figure relative to the category theme requirements.	20%
Artistic Design and Visual Impact	The GPS route forms a clear, recognizable, and visually compelling figure. Assessed on legibility of	25%

Republic of the Philippines
Office of the President
Philippine Space Agency

the design, composition, and overall aesthetic appeal of the artwork as seen on the route map.

Relevance to the Theme	Clearly reflects the theme “Navigating Tomorrow” and highlights space science and technology applications. Assessed through both visual design and the participant’s written caption.	25%
Technical Execution	Effective use of GPS tracking technology and accuracy/completeness of route recording. Assessed on completeness of route recording, precision of the figure relative to the intended design, and clarity of the submitted route map image.	20%
Resourcefulness and Creative Problem-Solving	Demonstrates creative problem-solving in route design given real-world terrain and infrastructure constraints. Rewards participants who produced strong artwork despite geographic or physical limitations.	10%
Total		100%

12. Three winning entries per category shall be awarded the following cash prizes.

<i>First Place</i>	<i>PhP 15,000.00</i>
<i>Second Place</i>	<i>PhP 10,000.00</i>
<i>Third Place</i>	<i>PhP 5,000.00</i>

13. Winning entries, along with other selected submissions, may be featured during the Philippine Space Week exhibit and through PhilSA’s official communication platforms as part of the Agency’s space education and awareness initiatives.

CERTIFICATE OF ENDORSEMENT

This is to certify that _____, a bona fide student of Grade _____ at _____ School, is officially endorsed to participate in the #YamangKalawakan Poster-Making Contest organized by the Philippine Space Agency.

Name of School Head: _____
Signature and Date: _____

CERTIFICATE OF UNDERTAKING

I, _____ (name of participant), currently in Grade _____ at _____ (school), affirm that the poster I have submitted is my original creation and has not been copied, traced, or imitated from any existing work by another person. I understand that submitting plagiarized or copyrighted work without permission is a violation of the law and the rules of this competition.

As I am a minor, this Certificate is signed on my behalf by my parent or legal guardian. By signing below, my parent or guardian certifies that:

- The information provided in this form is true and accurate to the best of their knowledge.
- They understand and accept the rules and regulations of competition.
- They consent to my participation and to the Philippine Space Agency's right to use, reproduce, store, adapt, or distribute the submitted poster for official and promotional purposes, with appropriate credit given to me as the original creator.
- They consent that, should I be selected as a winner, I will be allowed to attend the awarding ceremony to be held during Philippine Space Week on 9 August 2026 in Quezon City.

This Certificate is also endorsed by my Teacher-Coach and our School Head to confirm the authenticity of the submission.

Signed this ____ day of _____, 2026

Name and Signature of Parent/Guardian

IMPORTANT!

Please ensure that physical copy of your poster reaches the Philippine Space Agency on or before
