"K to 12 Graduates: Molded through a Resilient Educational Foundation,"

Congratulations to all our 2023 completers and graduates in all our public and private learning institutions of the province of Benguet. This year has been a true testament to the resilience and dedication of everyone in the field of education. I extend my warmest regard to our learners, teachers, and parents for bravely hurdling and embracing the shifting of classes from online and distance education to the continuous modifications to the new normal. You, learners faced the most crucial days of education because of the pandemic but this did not deter you in achieving your dreams in life. Instead, it paved the way towards the realizations of your talents, skills, and career potentials. Your diligence and resilience have been remarkable which concretized this year's graduation theme: "K to 12 Graduates: Molded through a Resilient Educational Foundation,"

The unwavering commitment and hard work of your teachers, parents, and stakeholders who have gone above and beyond to support your learning is a manifestation of their desire for a very successful and fruitful school year. Congratulations teachers, parents, and stakeholders for your untiring display of kindness, generosity, and resiliency in ensuring that education continues amidst difficulties. Your full cooperation and solid collaboration in the realization of the school's goals made the difference in the lives of all the learners. The fruit of your endeavor is clearly felt today.
